The Assembly of God Church Schools - Board of Education [BOE]

NOTIFICATION TO PARENTS

The Assembly of God Church School Board of Education and Management is deeply sympathetic to the plight of many families that have been adversely impacted by the economic effects of the Covid-19 crisis and extended lock-down all across the country. We are also acutely aware that the closure of schools during this period may have had some negative impact on the academic progress of children.

Despite financial pressures due to non-receipt/ lack of timely receipt of fees, without much loss of time all our schools have made arrangements to launch online classes during the lockdown period. We were able to do so thanks to the dedication of our teaching staff, who have had to invest long hours in training & orientation, preparation and delivery of online classes continually during the lockdown period.

In light of the present economic crisis and taking all budgetary factors into consideration, the Assembly of God Church School Board of Education has accordingly decided to make the following concessions/ allowances with regard to fee payment to be implemented across all our paying schools.

1. There has been no fee hike this year in deference to the appeal made by our Hon'ble Chief Minister, Smt Mamata Banerjee.
2. A fee waiver of **20% of the monthly fees** is being granted for the months of **April to July 2020**.
3. Parents who are able to demonstrate genuine and serious financial difficulties may approach the school authorities for a mutually agreed upon deferred fee payment plan.
4. Those who have already made payment of fees for the above period as per existing fee structure will have the excess amount adjusted towards future fee payment.

It may be noted that the AGC Schools BOE does its best to follow best practice in ensuring adequate compensation of our most prized assets, our dedicated teachers. Meanwhile, our Management continues to bear the burden of our Mission's service to the poor: 30% of the children we serve receive free education and nutrition in our schools for the underprivileged.

Kindly note that online payment of fees has been made available for the convenience of parents/guardians.

We look forward to your kind co-operation and wish our students, their parents and families, God's protection and good health.
